

## **SELECTA SYSTEMS LTD**

### **ENVIRONMENTAL POLICY STATEMENT**

Selecta Systems Limited and Select Profiles Ltd operate from one principal site located in Birmingham, and specialises in the extrusion of plastic hollow profile, manufacturing of composite doors, stockholding and distribution of plastic hollow profile, composite doors, weather gaskets and architectural hardware for the door, window and conservatory industries.

Selecta Systems Ltd is supplied all its main plastic range of product by Select Profiles Ltd and in doing so Select Profiles Ltd operates an almost non-stop production line all year round, delivering products daily. The company is a major supplier in this market with a wealth of experience spanning over 25 years. The company has grown from strength to strength during this time and now employs a 100 strong work force. The company can provide a comprehensive package to its customers with expert technical advice on production set-ups and tools included. The company provides a full range of after sales services.

Selecta Systems Ltd believes that all aspects of its operations should be carried out in such a way as to have a positive impact on the environment; and by nature of our business, recovery, recycling and re-use of product forms a significant part of our operations. The organisation will control its activities in order to minimise any negative effect on the environment. In order to maintain these values Selecta Systems Ltd is working towards establishing an environmental management system based on the requirements of BS.EN.ISO14001: 2004. This will provide the framework for setting and reviewing objectives and targets.

Selecta Systems Ltd is committed to:

- continued environmental improvement by implementing business-specific environmental management systems and ensuring sufficient resources are made available to implement this policy;
- prevention of pollution and monitoring and reducing any adverse impact of the businesses operations on the environment and local community, and taking appropriate opportunities to minimise waste and re-use and recycle materials wherever possible;
- compliance with applicable environmental legislation, regulations, codes of practice and other environmental standards of relevance to the industry in which we operate;
- developing objectives supported by detailed targets, to manage all potentially significant environmental impacts resulting directly from our operations;
- providing all employees with the information, instruction and training required for working effectively in caring for the environment and training needs pertinent to this policy will also be identified and appropriately managed;
- working in partnership with our suppliers to ensure effective environmental supply chain management and promote environmental best practices wherever possible with our suppliers; and
- communicating to everyone working for or on behalf of Selecta Systems Ltd the requirements of our environmental policy
